Sunday, Oct. 4

- Muncie Area Career Center: A Yorktown HS/MACC student has tested positive. After conducting contact tracing, we have identified four other students as close contacts who are all now in quarantine as outlined in the MCS [Reopening Plan](#). Of these four close contacts, one attends Winchester HS, one attends Yorktown HS and two attend Cowan HS. As a reminder, siblings of close contacts do not need to be quarantined and can keep going to school.
- South View Elementary: A teacher has tested positive. This person started isolating at the onset of symptoms and did not come into contact with any other staff or students, so nobody else is required to be quarantined.
- Northside Middle School: A student has tested positive. After conducting contact tracing, we have identified 33 other students and one teacher as close contacts. They are all now in quarantine for 14 days as outlined in the MCS [Reopening Plan](#). As a reminder, siblings of close contacts do not need to be quarantined and can keep going to school. Quarantined students will continue with their schoolwork from home using our [Schoology](#) learning management system.
