### Friday, Oct. 9

- Southside Middle School: Two students and a teacher have tested positive. In the case of one of the students, our contact tracing identified only one close contact. With the other student, there were 17 close contacts. In the case of the teacher, 19 close contacts were identified. All involved are now in quarantine and will return based on the [protocols outlined here](#). As a reminder, household members of close contacts do not need to be quarantined and can keep going to school. Quarantined students will continue with their schoolwork from home using our [Schology](#) learning management system.
