Friday, August 28

- West View Elementary: An instructor with the after-school program has tested positive. This person has not been at the school since Monday, Aug. 24 when symptoms first began. After conducting contact tracing, we have identified 22 students as close contacts. They were all removed from school today and sent home to quarantine for 14 days as outlined on page 7 of our [Reopening Plan](#). As a reminder, siblings of close contacts do not need to be quarantined and can keep going to school. Quarantined students will continue with their schoolwork from home using our [Schoology](#) learning management system.
