Thursday, Sept. 10

- Muncie Area Career Center: A student has tested positive after last being in School September 8. After conducting contact tracing, we have identified six other students as close contacts who have all been sent home to quarantine as outlined in our [Reopening Plan](#). Only three of these students are Central High School students. There is also one each from Yorktown, Monroe Central and Delta high schools. As a reminder, siblings of close contacts do not need to be quarantined and can keep going to school. The quarantined students from Central will continue with their schoolwork from home using our [Schoology](#) learning management system.
