Monday, Sept. 28

- Northside Middle School: A student has tested positive. This student has not been in school since symptoms began September 22. After conducting contact tracing, we have identified 34 other students as close contacts. They were all removed from school today and sent home to quarantine for 14 days from last contact as outlined in the MCS [Reopening Plan](#). As a reminder, siblings of close contacts do not need to be quarantined and can keep going to school. Quarantined students will continue with their schoolwork from home using our [Schoology](#) learning management system.
