Tuesday, Sept. 8

- West View Elementary: A student has tested positive and was sent home from school today. After conducting contact tracing, we have identified 5 other students as close contacts who have all been sent home to quarantine as outlined in our [Reopening Plan](#). As a reminder, siblings of close contacts do not need to be quarantined and can keep going to school. Quarantined students will continue with their schoolwork from home using our [Schoology](#) learning management system.
- Northside Middle School: A student has tested positive. This student hasn't been at school since Sept. 3. After conducting contact tracing, we have identified 10 other students as close contacts who have all been sent home to quarantine as outlined in our [Reopening Plan](#).
- Muncie Area Career Center: A student has tested positive, but has not been in school for several days. As a result, no other students have been determined to be close contacts, so nobody else is affected.
