

For immediate resources or assistance with math or science homework, go to <https://askrose.org/>.

The image shows a screenshot of the AskRose website. At the top, there is a navigation bar with the phone number 1-877-ASK-ROSE (1-877-275-7673) and several menu items: ABOUT, HOW IT WORKS, MEET OUR TUTORS, > STUDENT RESOURCES, EDUCATOR RESOURCES, and DATA COLLECTION PROJECT. There is also a search icon and an 'EMAIL A TUTOR' button. Below the navigation bar is a green banner with the text 'WE TURN "HUH?" INTO "AHA!"'. The main content area features an illustration of a female tutor in a red shirt with a white 'R' on it, sitting at a laptop and pointing towards a male student in a blue shirt who is also at a laptop. A green speech bubble between them contains a question mark and mathematical symbols: $\frac{1}{8}$, $\frac{3}{4}$, and $\frac{1}{4}$. A play button icon is overlaid on the speech bubble. Below the illustration are three buttons: 'Need homework help? EMAIL A TUTOR', 'MEET THE TUTORS' with a play button icon, and 'STUDENT RESOURCES' with a lightbulb icon.
