School Meals are Safe!!

The Centers for Disease Control and Prevention (CDC), the Food & Drug Administration (FDA) and the World Health Organization (WHO) all stress that there is no evidence COVID-19 spreads via food or food packaging. Whether meals are served in school or at a grab-and-go pick up location, school meal preparation is conducted in strict adherence with federal, state and local food safety regulations. In addition, CDC and FDA procedures are in place to protect school nutrition staff and the students they serve, including the use of Personal Protective Equipment, additional cleaning of food preparation and service areas and regular training on proper hygiene practices and food safety measures.
